**SOUTHERN CALIFORNIA EDISON COMPANY'S (U-388E) NOTICE OF
AVAILABILITY OF ITS APRIL 2007 ERRA APPLICATION**

On April 2, 2007, Southern California Edison Company (SCE) filed its application in the April 2007 Energy Resource Recovery Account (ERRA) proceeding. In this application, SCE sets forth its procurement-related operations for the Record Period January 1, 2006 through December 31, 2006, and demonstrates that during 2006: (1) its recorded fuel expenses and energy expenses were reasonable, (2) its contract administration, dispatch of generation resources, and related spot market transactions complied with Standard of Conduct Four in SCE's Commission-approved procurement plan, and (3) its other operations subject to Commission review were reasonable. In addition, SCE requests recovery of the revenue requirement associated with an under-collection of \$4.863 million accrued in four memorandum accounts authorized by the Commission. This under-collection reflects and passes through to customers only increased costs to SCE for the services and commodities that it furnishes (see Commission Rule 3.2 (a) (10)).

The following table shows an estimate of proposed revenues and rate changes by major customer group.

***Customer Group revenue Impact
April 2007 ERRR***

					Present	Proposed
			Revenue Change		Rates	Rates
Customer Group			(\$M)	% Change	(¢/kWh)	(¢/kWh)
Residential			1.977	0.0441%	15.137	15.143
Lighting - Small and Medium Power			1.788	0.0422%	14.793	14.800
Large Power			0.949	0.0401%	11.066	11.070
Agricultural and Pumping			0.130	0.0398%	11.554	11.559
Street and Area Lighting			0.019	0.0161%	16.996	16.999
Total			4.863	0.0421%	13.947	13.953
Proposed rates are based on revenue change amount.						

If rates change as requested, an average residential customer using 700 kilowatt-hours per month in the summer would see an increase of 4 cents per month, from \$97.00 to \$97.04.
